**\*\*\*Author Guidelines – ISRF 2027\*\*\***

To ensure the scientific quality of published articles and maintain a rigorous peer-review process, all authors must strictly adhere to the following guidelines.

### 1. Article Selection Criteria

Submitted articles must meet the following requirements:

- ✓ Must demonstrate **originality and novelty**
- ✓ Be of **high scientific quality** and provide a significant contribution to the field.
- ✓ The article must strictly correspond to one of the **conference topics**.  
Submissions outside the conference scope will be declined.
- ✓ Be written in proper English, with a clear title and abstract containing relevant keywords, corresponding authors, and contributing authors.
- ✓ Have a maximum length of **5 pages**.
- ✓ The reference list must contain **timely, accurate and relevant references**
- ✓ **All references must be cited in the text by placing** sequential numbers in brackets (for example, **[1], [2, 5, 7], [8-10]**). **They must be numbered in the reference list in the order in which they are mentioned in the text.**
- ✓ **Plagiarism** is not accepted.
- ✓ Authors must not use **AI or AI-assisted tools** (such as ChatGPT) to write the paper. The use of AI technology for this purpose is a breach of ethical scientific.

- 
- ✓ Each author can only be listed on **up to 3 articles** in the same issue regardless of his/her position in the list.
  - ✓ Authors must not submit their papers elsewhere **during the ISRF evaluation period**.
  - ✓ **Manipulation of citations, falsification of data, or any other form of academic misconduct that contravenes standards of scientific integrity are strictly prohibited.**

## 2. Bibliographic References Guidelines

### Strict reference limit:

- ✓ Each article must include a minimum of **15 references**.
- ✓ Among them, only **1 citation** from proceedings are allowed.
- ✓ Most of the references should have been published **within the last 5 years** (from 2022).
- ✓ **Excessive citation** of one journal or one author or one paper is discouraged.

**The ISRF 2027 committee will automatically exclude articles exceeding this limit.**

### Citation integrity and relevance:

- ✓ Avoid excessive **self-citation** or over-referencing the same authors or publications.
- ✓ All references must include the full title of the cited articles.
- ✓ The **DOI** number of each referenced article must be provided.

### 3. Tip for title & abstract

#### *How to choose the right title*

#### **IMPORTANT, why?**

- ✓ First thing anyone who reads your article is going to see
- ✓ Helps readers find your article, using keyword searches
- ✓ Well targeted audience means citations!

#### **Title should include**

- ✓ Key information about your subject
- ✓ Important keywords
- ✓ What you found (new result)
- ✓ Keep it concise and informative
- ✓ Write for your audience
- ✓ Pique your readers' interest
- ✓ Don't write your title as a question

---

## **How to write an abstract**

### **IMPORTANT, why?**

- ✓ To let your readers know what they can expect from your article
- ✓ Impact editorial evaluation of your article
- ✓ Influence your future readership

### **Abstract should include**

- ✓ Background: what is currently known?
- ✓ Objectives: what is the research question you are trying to answer
- ✓ Methods: general information without the specific details
- ✓ Results: give the key finding
- ✓ Conclusion: what is your conclusion

→ **Abstract should be a concise standalone piece that accurately represents your research. Keep to the point and include keywords. Eliminate spelling errors and acronyms, don't include any reference or citation.**

## **4. Additional Checks**

- ✓ ISRF committee will conduct thorough checks to ensure compliance with these guidelines and maintain the journal's scientific integrity.
- ✓ Failure to comply may result in manuscript rejection, even after revision.

***We appreciate the vigilance and commitment of our authors in upholding high publication standards.***
